```c
#include<stdio.h>

int main()
{
    FILE *fp;
    char szText[50];

    fp = fopen("file_to_screen.txt","r");

    if(NULL == fp)
    {
        printf("\nCant Open File\n");
        return -1;
    }

    while(fgets(szText,49,fp) != NULL)
        printf("%s",szText);

    fclose(fp);

    getch();
    return 0;
}
```
